WORK EXPERIENCE

GIS – Georgian Integrated Systems

Aug 2020 — Sep 2020

Android Developer

In August for the period of summer, I took some trainings in company GIS as an Android Developer, where my main activity was programming robots called Pepper

UFC JSC - United Financial Corporation

aug-2021 — Till Today

IT support specialist

In August 2021, I started my job as an Informational Technology support specialist as UFC JSC - United Financial Corporation

QUALIFICATIONS

I love team work and motivation is important for me, which significantly effects to the quality of work, I can diagnose the problem and fix it quickly, I pay attention to details, also I have some other computer skills such as working with MS windows and GNU/LINUX operating systems, I like to move forward, to develop, be more creative and to learn something by myself and use it during the work and yes let's don't forget about humour and communication too.

EDUCATION

Informational technologies

Sep 2019 — Till today

BTU - Business and Technology University

Nowadays I am a student of business and technology university, studying on informational technologies on third course, GPA 3.11+, I graduated from Tbilisi N63 Public School, also in 2012-2015 I studied at the Byron School of Tbilisi and then I continued my English development with a private teacher where I learned B2-C1 level English. Before my last year in school I took a C++ course at the Informational Technology Center called 'Mziuri', In 2017 participating at the International teachers training as an upper-intermediate level student was perfect, also as I mentioned before in 2020 I took some trainings in GIS- Georgian Integrated Systems as an Android Developer.

I have some many other skills like working with Figma and Adobe XD as an UX/UI designer also I have many other works done in Illustrator-After Effects-Media Encoder(I can send all of my works), Oracle SQL, MYSQL databases, also data structures and algorithms, HTML/CSS(Sass)/JS(middle).

INTERESTS

I'm Interested in Front-end Development(React) and UX/UI design.
